He had to be killed to prove He cannot die.

He had to be born to prove He already existed.

God did not become man! Man is His image and likeness.

Where do spirits come from?

Why is creation by the Son?

Why is faith necessary to please God?

Why could the resurrected Christ not be touched because he had not yet ascended to the Father?

Where was Jesus and what was He doing between crucifixion and resurrection?

How can the prisoners be set free if judgement occurs at death?

All mankind was already created male and female spiritually before they were in the flesh upon the earth. Why then, did God wait so long or any time at all to bring Eve into the world?

How can the glories be forever without end and yet the final state of the soul of man is either to be with God and his angels or with Satan and his angels?

Parkview Notes 2023/11/26

Your testimony of Jesus/God working in your life is your power of Godliness unto the salvation of the souls of men.

The power of God is manifest through the ordinances when performed by those having authority because that is no longer an earthly act but a performance in heaven before the throne of God and the Holy blessings pour back upon those involved.

All elements obey God and that ALWAYS superceeds normal observable or "natural" laws.

tell the storm to be still

restore eyes or limbs to "perfect" condition

turn the earth backwards 1 hour

walk on water

ascend (not bound by gravity = not cast to earth)

We know that the Holy Spirit lives within us because it is constantly in touch with our spirit to help against evil which conceives in the heart of man. As a result, the interaction with the Holy Spirit helps our spirit to keep the body in check and the mind right which constitutes holiness. We never own the holiness as God does- we just get to live in it.

Two ways

once saved - always saved

very freeing because it is seen as a license to sin and we cannot fail

take upon you the name of Jesus Christ and serve Him

and endure unto the end, then you shall be saved.

seems like a lot on just a promise and we seem sure to fail
